This program is ideal for Corporate Coaches, Consultants, HR and OD professionals experienced in group process.

- Expand your professional service offering
- Work with a growing international brand
- Create a distinction for your work in the coaching marketplace

Benefits:

- Ability to offer your clients an on-going *team coaching* methodology for sustainable change
- Access to a proven team assessment tool that gives clients metrics and gives you a map for team development
- Marketing support

Outcomes:

- Actual experience working with the system. A team is more than the sum or aggregate of the parts; it is a dynamic entity.
- Practice with the Team Diagnostic™ and team report. The course includes a Team Diagnostic™ you can use with a client team of your choice and a second assessment to be used with the same team after 6-8 months of coaching.
- Learn to recognize development areas and plan follow-up coaching sessions.

You will have direct, hands-on experience working with the diagnostic tool, evaluating intervention options and creating a coaching plan. We will use a variety of case study samples for practice during the course.

The 12-Module Online Learning Overview:

*Extended Learning for Coaching
Mastery and Professional Success*

Twelve self-paced modules of on-going training through our Team Coaching Institute, an online e-learning platform.

You will gain rich team coaching materials of best practices and professional support with a community of colleagues. Topics include the value proposition for team coaching, marketing and proposals, designing team interventions and ongoing team coaching, and a deeper dive into the Team Diagnostic™ methodology. This extended learning series is designed to support your mastery of the material and success in building a team coaching practice. Upon successful completion of the Team Coaching Intensive and 12-module online series, you will be eligible to become an Authorized Team Diagnostic™ Facilitator.

Team Coaching International has trained facilitators in more than 20 countries worldwide and the Team Diagnostic™ can be deployed in 13 languages.

“Incorporating the Team Diagnostic™ and the team coaching methodology into my coaching practice has changed everything. Everything! The Team Diagnostic™ has opened so many doors for me. Best part is I get to design programs that fit the team like a glove and that have real impact.”
